

### How will social distancing work?

For fitness classes, marks have been placed on the floor, 6 feet apart. Zumba routines will be modified so that there is much less traveling

All classes will be staggered – one room on the hour, one room on the half hour.

For Ballroom/Latin, there will be a maximum of 6 couples per room, based on the studio's size.

Staggering the classes allows for sanitizing and sterilizing of frequently touched surfaces.

### Do I need to wear a mask at the studio?

Masks are required to enter and exit the studio, but not while people are dancing. Guidelines are recommending that masks should be removed for physical activity.

### Can I drop-in to a class?

Since there is a limit of how many students can be in the space while maintaining social distancing, you must register in advance via email or by phone. Our limit is 6 couples for ballroom/latin, and 13 people for fitness, based on the space we have.

### Is there an extra fee for missing a class?

No. If you need to cancel, your account will reflect the regular class fee, without extra fees. The classes will need to be at the maximum safe capacity.

The assumption is that there will be people waiting for spots, so reasonable time is required to let waiting students know that there is a spot.

With a maximum capacity, it will be first come, first served.

### Have my pre-paid classes or Gift Certificates expired?

No. Any classes or Gift Certificates on account will have their expiries extended by the amount of time the studio has been closed. This includes Private Lessons, Groups, Fitness and Club memberships.

### Do I need to bring my own water?

Yes. Water coolers have been temporarily removed for your safety.
