

## **Four Things to Know Before Choosing a Dance Studio**

Does it really matter where you choose to take lessons and classes? Yes! Before deciding which place is the right fit for you consider some of these things.

### **Can I Choose Which Type of Class and/or Styles to Learn?**

At AIM there are several options that include private, small class and group classes. As well as several dance styles that our knowledgeable team can introduce you to. With social dancing having a variety appeals to some people, while other may prefer to start with one or two dance styles. Do you have a special occasion like a wedding or vacation to prepare for? We do our best to tailor the lesson to the individuals' requests. If you are looking for an evening out of the house then the group and dance fitness classes offer the social aspect while still learning the art of having fun.

### **Is it a Competitive or Social Dance Studio?**

The community within the studio and surrounding areas is important to us. We don't offer competitive classes. There is occasion to rock out during a fitness class or even put together a routine to showcase to fellow dance friends. We focus on Fun while learning to dance and encouraging people to do their best. With performances at seniors homes, parties and events there are times for students interested to show off their skills.

### **Where is it Located?**

For over 20 years we have been in Brant County & Brantford offering classes to hundreds of people. Easily accessible via Highway 24 and the 403 there are many that drive from Simcoe, Norfolk, Hamilton, Cambridge and Kitchener Waterloo areas.

### **Will You Have Fun Learning?**

Yes, we specialize in the art of having fun while learning to dance. Whether it's a fitness class or a private lesson we know the importance of being relaxed to maximize retention of information and for the overall sense of accomplishment. It can be stressful remembering patterns and listening to the music but it's also an amazing exercise for your brain. There's nothing to lose with trying a class for yourself to feel what it's like.
